And, also, the wonderful cures effected by Swaim's Panacea, have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass.

SPRATT'S LIGHTNING RODS!

WITH branched and other points made of pure copper and gilded with fine gold, all of which are warranted to preserve the extremity sharp and bright. Eight times as good a conductor as a spurious imitation made of Cast Iron; and sold last year by some dealers in Lightning Rods.

Also, Fixtures for a new and valuable improvement in applying Insulators by which the glass is kept dry, causing no leaks in roofs of buildings, and effectually preventing the Electrical Fluid from being conducted by iron screws and drives into the seam.

The following recommendations have been furnished gratuitously—

Louisville, Jan. 27, 1851.

The Lightning Conductors on the plan of J. Spratt, of Cincinnati, appear to be very well devised, and in point of mechanical construction, are the best I have ever seene.

It is to be hoped that the use of these rods may become general as an important auxiliary defence against a danger which must be regarded as of no ordinary magnitude, to which all buildings are liable.

B. SILLIMAN, Jr.
Prof. of Chem. in the Univ. of Louisville.

This will certify that I have examined the Lightning Rods, Metallic Points, and Insulating Attachments, manufactured by Mr. Spratt, of Cincinnati, Ohio, and regard them as constructed in conformity to the general laws of the electric fluid; and the Gilded Copper Branched Points, as promising, from the results of several tests to which they were submitted, to resist for years the action of those atmospheric causes most likely to corrode them.

THURSDAY MORN'G, JAN. 11, 1855

WANTED.

AN INTELLIGENT boy, of steady habits, to learn the printing business, to whom a good situation will be given; apply at this office immediately. n8

☞ The Parade of the Old Soldiers, Monday, was *the* event at Washington.—Among them was Thurlow Weed. He served in the war of 1812 as Quartermaster's-Sergeant; and yesterday he met with the very Quartermaster, after a separation of twenty-five years. There were many Indians in the veteran band. The corps visited the White House, where the President and most of the Cabinet were present to recieve them. Mr. Sutherland, the President of the Convention, addressed the President, who replied in a handsome manner. Gen. Leslie Coombs, of Kentucky, and Col. Harvey Baldwin, of Syracuse, both veterans of the war, made eloquent and affecting speeches, as did, also, some of the Indian chiefs.

On reassembling in one of the churches, a series of resolutions were adopted. We give the most important;

Resolved, That the Committee memorialize Congress to make each officer, soldier, sailor and marine, who served, however so short a time, during the war of 1812, a gift of at least one hundred and fifty acres of land to the lowest grade, to extend to the widows and children of those who are since deceased.

Resolved, That similar provisions be made to those who were confined in foreign nations during any part of the war; and, also to prisoners in Tripoli, and to the widows and children of the deceased.

REORGANIZATION OF THE ARMY.—General Scott is now in the city, in pursuance of a summons of the committee on military affairs of the House of Representatives.—He spent two hours yesterday (Wednesday) before the Committee in explanation of the wants of the military service, and is decided in his opinion as to the necessity of a proper organization of the Army. In the Senate the bill for the reorganization of the Army was recommitted, with the understanding that the two committees of Congress would have the benefit of the veteran's advice on the subject.

General Jesup, and other distinguished officers of the army, will also be summoned before the committees. There appears to be a general impression that the schemes for which Mr. Shields is laboring in the Senate, and Mr. Faulkner in the House, will meet with favor. That portion of the bill which provides for an increase of the army, secures almost universal concurrence. The increase of pay and the retired list may produce some difference of opinion, but they seem to be dependent propositions.—*Intelligencer.*

NANTUCKET.—We are glad to learn that the committee appointed last fall to take some measures for the introduction of new branches of business in this place are beginning to move in the matter. Among the different branches of manufactures proposed are the boot and shoe business, the manufacture of screws, paper, brooms, chairs and the blowing of glass. Sub-committees have recently been appointed to make investigations in relation to the foregoing branches of industry, and it is to be hoped that it may be found feasible to establish some of them at no distant day.—*Nantucket Inq.*

☞ RICH LACE.—Among the goods imported by the Asia to Boston, was a case of thread lace valued at $10,500, upon which the duties amounted to $2100. A single invoice of French goods was valued at $33,765, and the duties paid amounted to $8439,95.

The British expenditure in the year ending the 10th October last, on account of the army was £7,060,882; on account of the navy £10,057,769 5s. 10d.; on account of the ordnance £3,690,890 11s. 9d.; Kaffir war £330,000, and the vote of credit; additional expenses, war with Russia £220,000.

—Mrs. Marryatt, the mother of the late Capt. Marryatt, of the British Navy, the popular novelist, died at her residence at Wimbledon, near London, on the 13th December, aged about 88. She was a daughter of the late Frederic W. Geyer, of Boston, and was married at the residence of her father in Summer street, in 1787.

—The Washington correspondent of the New York Courier, writes that it is expected that Hon. John Appleton, editor of the Portland Argus, will succeed D. E. Sickles, as Secretary of the London Legation.

—Three hundred and twenty six Revolutionary pensioners died during the past year. The number now on the pension roll is one thousand and sixty.

—In addition to the District Attorney, it is now reported that the U. S. Judges from Minnesota have also been removed.

ILLINOIS CENTRAL RAILROAD.—On Monday next regular passenger and freight trains will commence running twice a day between Chicago and Cario; and on the 15th between Galena and Cairo; it is the extreme Southern point of the State of Illinois, at the confluence of the Ohio and Mississippi rivers, and this road traverses the entire state, North and South. The Maine Line, as it is called, runs from Cario to La Salle, a distance of 308 miles. The track thence to Galena, 137 miles, is termed the Galena Branch. The Chicago Branch, running to La Salle, is some 40 miles shorter. A friend writing from Chicago, says "The opening of the Maine Line (308 miles) and the Galena Branch (137 miles) is a great event for Illinois, and I hope you may consider its announcement in your columns of sufficient public importance to justify some interesting editorial comments."

We are quite sensible of the magnitude of the enterprise, now so near completion—for although no information is given on that point, we presume that the Illinois Central will soon be finished from Chicago to LaSalle, the point of intersection with the main line—and also of its vast importance, not only to Illinois, but to the whole country. But this fact is so generally understood that no editorial comments are necessary to its universal appreciation. The line from Chicago to LaSalle is about one hundred miles in length, making the distance from Lake Michigan to Cairo by railroad a trifle over four hundred miles. The work brings into immediate proximity sections of country heretofore isolated and remote from the commercial marts of the new world, and cannot fail to contribute largely to the prospirity and wealth of the great West. The work has been prosecuted with commendable vigor and economy; and its early completion is highly creditable to the enterprising men who have been entrusted with its management and construction.—[Buffalo Commercial, Thursday.

THE TWO BISHOPS OF NEW YORK.—The correspondent of the Boston Journal gives the following account of the appearance of Bishop Potter in New York:

Having heard that the newly consecrated Bishop of New York was to hold an ordination on Sabbath last, I thought I would visit the Church of the Annunciation, in which it was held. As this was the first appearance of the new Bishop, the church was crowded. Bishop Potter is a tall, spare man, with hair quite grey, and in countenance not unlike his brother, the Rt. Rev. Bishop of Pennsylvania. At the Church of the Annunciation, Rt. Rev. Bishop Onderdonk attends. He is, *de facto*, THE Bishop of New York. He is suspended, but not deposed; and did the question rest with his diocese, he would be restored at once. He lives in the Episcopal residence, and has a salary of $3000 a year, paid by this diocese. It was quite a touching sight, as the Communion was administered by the Provisional Bishop, to see Bishop Potter administer the elements to the Bishop alone, before the priests and congregation were served. Upon the death of Bishop Wainwright, a strong attempt was made to restore Bishop O. But it was not successful. It is now nearly ten years since the Bishop was suspended. Bishop O. regarded the sentence as unjust, and growing out of personal feelings; but he bowed to it submissively. He has abstained from all company since, and has never walked down Broadway since that time. He visits the Church of the Annunciation each morning at daily service, and attends on the Sabbath. Besides this, he keeps himself closely within his house. His friends say that, even under the worst aspect of the case, he has suffered enough, and manifested a submissive spirit, such as should entitle him to a restoration.

DEATH OF OLNEY WHIPPLE, Esq.—Olney Whipple, a well known citizen of Pawtucket, North Providence, died yesterday morning at his residence, in that place.—Mr. Whipple was for many years engaged in the manufacturing business at Central Falls and elsewhere, and was for many years a member of the Senate of this State. He retired from business some years since under depressing pecuniary circumstances, the continuance of which with infirmities of age preyed upon his spirits, and deranged the functions of a once energetic and well balanced mind. He died by his own hand—having suffocated by the fumes of charcoal deliberately prepared for the purpose. He left in his desk letters addressed severally to the members of his family, making known his purpose and bidding them an affectionate farewell. These and other circumstances connected with the event being enquired into by J. H. Weeden, Esq., coroner, who was called for the purpose, he did not deem it necessary to hold an inquest. Mr. Whipple's age was probably about sixty five years.—*Prov. Post.*

A desperate fight came off in New York on Sunday, in a saloon in Broadway, between Tom Hyer and Jim Turner, the latter from California. Both drew pistols and discharged shots, without serious damage.—Hyer, however, was severely injured during the fight. Both parties were arrested.

BAD LIQUOR.—A correspondent of the Spirit of the Times tells an amusing story—somewhat at the expense of a liquor dealer at Yonders. He says:

A few days since a *stranger* strolling through the streets, walked into the bar-room to make some enquiries about the village. After getting the desired information, he said he would take a little brandy and water inviting the bar-tender to join him. Putting *the brandy* to his lips, he quietly replaced the glass, took a shilling from his pocket, placed it upon the counter, and turned to leave; the bar-tender (who had, with many good wishes for his health, taken a regular "corker" at a gulp,) looked with astonishment at the undrank.—"Surely, Sir, you do not mean to leave the *brandy?*" The stranger, in a careless sort of way, replied that he was "just going to walk about the village for an hour or so; he would call in on his return, and if he found HIM *alive*, he would drink the remainder!"

THE "THREE GRACES!" The Worcester Police Court had an important case on trial last week, in which Julia McDonough preferred a complaint against Catherine Delany for assault and battery. It appeared that there were three girls, of whom the above parties were two, who roomed together in a factory boarding house at Charlton; that Julia retired first one night, and therefore claimed half of the bed, and that *in the middle*: that the other girls objected and forced her to the back side, and that in a moment unexpected she braced herself against the partition and pushed the two out of bed, whereupon a fight ensued, the latter two taking the feather bed and clothes and sleeping on the floor, leaving the fair Julia with the straw bed alone, and postponing the finale until morning, when it was finished with clubs and mutual hair-pulling. After the particulars had been duly drawn out in open court, Catherine was discharged.

—A gentleman in Alabama, in exerting himself one day, felt a sudden pain, and fearing his internal machinery had been thrown out of gear, sent for a negro on his plantation, who made some pretensions to medical skill, to prescribe for him. The negro, having investigated the case, prepared and administered a dose to his patient with the utmost confidence of a speedy cure. No relief being experienced, however, the gentleman sent for a physician; who, on arriving inquired of the negro what medicine he had given his master. Bob promptly responded—"rosin and alum, Sir!" "What did you give them for?" continued the doctor. "Why," replied Bob, "de alum to draw de parts togedder, and de rosin to sodder um." The patient eventually recovered.

☞ When Sophie Cruvel, the great opera singer, who ran away to get married, returned to the Opera, at Paris, she was very coldly received by the audience on the night of her reappearance. It was in the "Huguenots," and there was a dead silence until, in the natural course of the piece, the question is put to her (*Valentine*) by the queen, "Tell me the result of your adventurous journey?" The question, so appropos to her recent escapade, so much amused her that she smiled. The house took the joke, and a burst of hearty laughter was the consequence. From that moment harmony was restored. The audience applauded the syren, as usual, and called for her when the curtain fell. The French will forgive anybody or anything that will make them laugh.

—A schoolmaster in Cornwall, Eng., advertises—every boarder must be supplied with a Bible, a prayer-book, a knife and fork, three towels, and a silver dessert-spoon; all of which *except the books*, become the proprietor's perquisite on the pupil's quitting school." Quite considerate and appropriate—bibles and prayer-books for the pupils; the hard ware and silver for himself.

Mrs. Partington's Opinion of the Legislature.—"So they meet on Tuesday to qualify the governor, do they?" said Mrs. Partington to the member from Bozzleton, who had just taken a blow at the spirometer to test his abilty to sustain the weight of his duties as a legislator. He assured her that this was a fact, and looked at her with becoming legislative dignity. "Well," said she, offering him a pinch of snuff, "wouldn't it be well to try to qualify all of the members at the same time? for good ess knows the most of 'em need qualifying enough."—The member pleaded an engagement on a committee, and disappeared behind a pillar of the state house, while the old lady went to seek Ike, who was viewing the statue of Washington, and wondering how many marbles it would make if it was cut up.—Boston Post.

☞ F. J. Grund, the Administration's letter writer, says Marcy has been the conservative genius of the Cabinet—opposed to plundering Spain, opposed to the Ostend Congress, cautious about annexing the Sandwich, or buying the Gallipagos Islands, and that he and Guthrie are the fulcrum of the Governmental lever, and can't be outset from their places.

WASHINGTON, Jan. 9.

It is semi-officially announced, that the government is fully prepared to repress the projected expedition to Central America, the moment that it assumes a revolutionary or unlawful character.

BALTIMORE, Jan. 9.

The difficulty between our new Mayor and Common Council, is in a fair way of adjustment—the former now being generally sustained in the independent course which he has adopted.

HARTFORD, Jan. 9.

The sentence against Lucas for placing an obstruction upon the Middletown Branch Railroad, is five years and three months hard labor in the Penitentiary.

A French Don Juan.—A young man, aged about thirty, dressed with extreme elegance, arrived at the station of the Rouen railway about ten days ago. He was accompanied by a young female who was also most elegantly attired. Almost immediately after he alighted from the train he was taken ill, and in a short time manifested all the symptoms of poisoning. He was canveyed into the nearest hotel, and there, though medical assistance was promptly procured, he died in great agony. On his being taken ill, the female by whom he had been accompanied, disappeared, and all attempts to discover her were in vain. It being strongly suspected that he had died of poison, information was given to the magistrates. On examining his pockets, a number of portraits of females, rings, locks of hair, innumerable love letters, and other trophies of a favorite of the ladies were found.

The Mayor of Rouen gave Information of the death to the Prefect of Police, at Paris; and from inquiries which the police, by the Prefect's orders, instituted, it became rather widely known. The consequence was that the Mayor of Rouen recieved a great number of letters from females in different positions in society, claiming the deceased; but though all agreed in describing him as remarkably good looking, and all expressed profound sorrow at his death, no two of them gave him the same name. The lady who put her address to the love letter found on him was sought out and questioned, and she gave him a name different from that of all her rivals. The real name of the Don Juan has not yet been discovered, and the more inquiries are made more difficult it becomes to know who he was. From an examination made of the body, it appears that he died, not of poison, but of a sudden attack of cholera.

THE ERIE RIOTERS—A dispatch from Erie last night says:

"The track of the Lake Shore Railroad was torn up by order of the Commissioners of the Highways, and the road-bed ploughed over. The mob are now engaged in tearing down the bridge over State street. Sheriff Vincent endeavored to make arrests, but was driven from the ground by the rioters, both he and Judge Miles being pelted with snow-balls and stones.'

We should think it about time for the Executive powers of Pennsylvania to put down these mob-exhibitions.

Joseph Gales, the veteran editor of the *National Intelligencer*, is quite ill from a series of attacks of the quinsy type, which has greatly impaired his constitution.

A MOST ASTONISHING CURE OF SCROFULOUS ULCERS.—A CASE CERTIFIED BY THE MAYOR OF BOSTON, ENGLAND.

Copy of a Letter from J. Noble, Esq., Mayor of Boston, Lincolnshire.

To PROFESSOR HOLLOWAY,

Dear Sir,—Mrs. SARAH DIXON, of Liquorpond Street, Boston, has this day deposed before me that for a considerable period she was severely afflicted with Scrofulous Sores and Ulcers in her arms, feet, legs, and other parts of her body; and although the first of medical advice was obtained, at the cost of a large sum of money, she obtained no abatement of suffering, but gradually grew worse.

Being recommended by a friend to try your Ointment she procured a small pot, and a box of the Pills, and before that was all used, symptoms of amendment appeared. By persevering with the medicines, for a short time longer, according to the directions, and strictly adhering to your rules as to diet, &c., she was perfectly cured, and now enjoys the best of health. I remain, Dear Sir, yours truly.

Dated August 12th, 1855. (Signed) J. NOBLE.

AN EXTRAORDINARY AND RAPID CURE OF ERYSIPELAS IN THE LEG, AFTER MEDICAL AID HAD FAILED.

Copy of a Letter from Mrs. Elizabeth Yeates, of the Post Office, Aldwick Road, near Bognor, Sussex, dated Jan. 12th, 1855.

To PROFESSOR HOLLOWAY,

Sir,—I suffered for a considerable period from a severe attack of Erysipelas, which at length settled in my leg, and resisted all medical treatment. My sufferings were very great, and I quite despaired of any permanent amendment, when I was advised to have recourse to your Ointment and Pills. I did so without delay, and am happy to say the result was eminently successful, for they effected a radical cure of my leg, and restored me to the enjoyment of health. I shall ever speak with the utmost confidence of your medicines, and have recommended them to others in this neighborhood similarly afflicted, who derived equal benefit.

I am, Sir, your obliged and faithful Servant,
(Signed) ELIZABETH YEATES.

AMERICAN AND FOREIGN OFFICE. AGENCY FOR BUSINESS WITH THE U. S. PATENT OFFICE: WASHINGTON,

NO. 76 STATE, OPPOSITE KILBY ST., BOSTON.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of twenty, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments, and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringements of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting one dollar. Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston did business at the Patent Office, as Solicitor of Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,
Late Commissioner of Patents."

THE KNOW NOTHING.

KNOW SOMETHING.

In fact, we have no such manuscript offered us since the Lamplighter, so says our readers, and so the Lamplighter stands out above and superior to all other emanations of the American and European Press, as the great book of the year 1854, so, unless all who have read this new manuscript are greatly in error will the Know Nothing become the successful issue of the year 1855.

Why the above was selected as its title the sequel will show.

The above work makes a handsome volume of about 350 pages, and is sold at $1 per copy, at TILLEY'S, opposite Post office. d7

SOAP! SOAP!!

THE subscriber is now prepared to furnish the highly celebrated American Cream, American Laundry, American Manufacturers' Soap, and Cream Soap preparation. These soaps are presented to the public with the fullest confidence in their superiority and utility. A fair trial according to the directions given below, cannot fail to be entirely satisfactory; and an argument more conclusive than pages of certificates and recommendations. A fair trial is all I ask. These soaps do the work of the Laundry in the best manner in cold water, either hard or soft, or salt, dispensing entirely with boiling, pounding, washing machines, &c., without injury to the most delicate fabric. In cold weather, health may render it advisable to take the chill off the water.

The tendency of these soaps is to soften the clothes and loosen the hold of the dirt, without injury.

DIRECTIONS FOR USE.—White Clothes—Rub the soap freely on all soiled spots, make a strong suds in water, sufficient to cover, soak a few hours, or all night if convenient, when with a common hand rubbing and thorough rinsing, they will be perfectly clean and beautifully bleached.

Calicoes and other colored articles, wash without soaking and rinse.

Woolens—Wash in warm suds (to prevent shrinking) and rinse.

Merinoes, Silk Velvets, Silks, Ribbons, &c. Wash in strong suds and rinse.

To take Lamp Oil, Wheel Grease, Grease Spots, &c. out of Carpets, Table Covers, and Clothing, rub the soap on freely, soak some time in strong suds, rub out and rinse. Ink spots and stains, use full strength, soak, and wash in hot water.

Gilding and Mahogany.—Wash in weak suds, rub with silk cloth and rinse. Paint, wash in strong suds.

For all other purposes, use as you do the common bar soap, and you will be compelled to admit that it surpasses all other soaps. Manufactured and for sale wholesale and retail, by

FOR NEURALGIA AND RHEUMATISM.
DOCT. TRIPP,

WHO has devoted many years to the treatment of Neuralgia and Rheumatism, has succeeded in discovering a new remedy, which in the most severe as well as milder cases has proved an infallible remedy, and has fully met the approbation of eminent medical men, many of whose testimony he has in his possession.

The monsters Rheumatism and Neuralgia, so prolific of pain and misery, when invidious attacks upon the head, face, shoulders, back, loins, knees, feet, hands, &c., producing palpitation, fainting, distortion and deformity, have from all ages baffled the skill of eminent practitioners, nor has it been possible at any time to correct the viciated state of the fluids by any outward application, such as pain killers, ointments, liniments, &c., but in all cases where a cure has been performed, it has been done with alkaline medicines used internally; all others giving but partial relief.

DOCT. TRIPP has no remedy that cures all ills that flesh is heir to, but for the above complaints he feels safe in saying that within the last four years he has not known a single case where it has not produced

IMMEDIATE RELIEF,

and a permanent cure. Whoever uses it for acute, chronic, inflamatory or mercurial Rheumatism or Neuralgia in any part of the system, in any degree of severity, or for pains of cancers or head-ache, and does not get immediate relief, may return the medicine at his expense, and the money will be refunded.

This remedy may be obtained of Dr. Tripp, No. 189 Union street, New Bedford, Mass., or will be sent to any part of the country by express.

All orders should be addressed to Dr. T., box 421, New Bedford.

N. B.—As heretofore, it will be furnished to all medical practitioners for their own use, gratuitously. a29—ly
